

Transformational Learning and Advanced Opportunities Grants

Funding to help Montana school districts and families enhance work-based learning opportunities for students

Transformational Learning Grants are available to Montana school districts to support updated and flexible curricula, connections between learners and employers, new learning and proficiency-based learning opportunities and more.

School districts can apply for **Advanced Opportunities Grants**. Advanced Opportunity grants support students and families by reducing out-of-pocket costs for students to participate in student-selected learning.

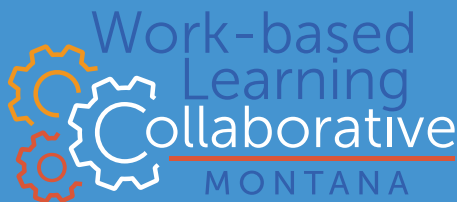

Montana students succeeding through high quality, college and career-connected learning, leading to their future career goals.

The application processes for **Transformational Learning Grants and Advanced Opportunities Grants** opens Dec. 4, 2023. Proposals are due by Jan. 8, 2024.

To learn more, contact your local school district or the Montana Office of Public Instruction.

About the Montana Work-Based Learning Collaborative:

We are a cross-section of public and private sector organizations with a stake in work-based learning, determined to work together to find a better way to ensure Montana students, educators, and businesses are supported by high-quality, accessible, relevant, and measurable work-based learning opportunities. **To learn more, visit wblmt.org.**

How have Montana schools used Transformational Learning and Advanced Opportunities Grants?

Transformational Learning Examples

Belgrade funded Prostart and construction courses, standards-based learning professional development, and professional learning communities.

Joliet funded Chromebooks, virtual reality headsets for science education, digital arts technology, and work-study partnerships.

St. Regis funded dual enrollment and implemented Flexible-Friday course offerings and instructional support, and provided student access to computer gaming and design opportunities through the University of Montana.

Advanced Opportunities Examples

Conrad funded a Trades Academy, and supported industry-recognized credentials in plumbing, dental, electrical, pharmaceutical, and drone operations.

Reed Point funded college credits, CTE programs, and Vet Tech industry certifications.

Park High School funded dual enrollment, advanced placement and early college opportunities; work-based learning; and stackable credentials.
